● BSc (Hons) in
Finance

Four Years. Three Tracks. One Defining Career.

www.krmangalam.edu.in

A Note to the Student Who Means **Business**

Finance is not just a career. It is the language of every significant decision made in business, government, and society - from how a startup raises its first rupee to how a government structures its debt, from how a life insurance company protects millions of families to how an algorithm executes a trade in 3 microseconds.

If you have ever wondered how businesses really work beneath the numbers, you already think like a finance professional.

The BSc (Hons) Finance at KR Mangalam University is designed for students who want more than a degree. It is for students who want depth, real skills, and a genuine head start in one of the world's most rewarding professions.

What makes this programme stand apart is not a list of courses. It is a promise:

KRMU will place every student into a paid, track-matched industry apprenticeship - so you graduate not just with a degree, but with 12 months of real professional experience already behind you.

By the time you finish this programme, you will have real skills, real work experience, real professional networks and a real degree that employers and professional bodies respect.

The four years ahead of you are the most important investment you will ever make. We have built this programme to make sure they count.

3 Specialist Tracks from Year 2

12 months Paid Apprenticeship

Designed by Industry + Academicians

Core Finance • Quantitative Finance •
Actuarial Finance

Guaranteed & track-matched split across
Year 3 & Year 4

CFA • FRM • IFoA • IAI • SOA (USA) aligned
curriculum

Designed by industry leaders & top-notch academicians.

Built on real work.

Powered by guaranteed apprenticeships.

12 Months

Guaranteed

Placement Salary

Aligned with International courses in CFA, FRM & Actuarial Science
NEP 2020 Compliant
AEDP Governed Apprenticeships

12 Months Industry Apprenticeship. Paid. Guaranteed. Matched to Your Track.

Most students have to figure out internships on their own.

At KRMU, we have already done that for you.

Through signed MoUs with companies across finance, insurance, actuarial, and quantitative sectors, KRMU guarantees every student a paid industry apprenticeship in an organisation aligned with their chosen track.

This is not something you figure out. This is what KRMU has figured out for you.

STINT 1

Semester 6 - 6 months

Your first step into professional finance. You work in a real organisation aligned to your track, earning a stipend while contributing to live projects.

Stipend: ₹10,000 – ₹50,000/month

Governed by AEDP guidelines

STINT 2

Semester 8 · 6 Months

A second placement, at a more senior level, with deeper skills. You may choose a different company or a different profile within your track. Double the experience. Double the network.

Stipend: ₹10,000 – ₹50,000/month

Top performers often receive pre-placement offers

Track-Matched. Every Time.

*Your apprenticeship is not a generic placement.
It is matched to your chosen specialisation.*

Core Finance Track

Placed in investment firms, banks, corporate finance teams, and financial advisory organisations.

Quantitative Finance Track

Placed in quant desks, risk firms, fintech companies, and algorithmic trading organisations.

Actuarial Science Track

Placed in life insurance, general insurance, actuarial consultancies, and pension fund organisations.

The apprenticeship stipend range is as per the AEDP (Apprenticeship Embedded Degree Programme) guidelines of the Government of India. Actual stipend depends on the organisation and role.

Choose Your Track - From Year 2

From Semester 3, every student specialises. The track you choose shapes your courses, your apprenticeship, and your career. Take time to choose well.

Core Finance Track

Track 1

ALIGNED WITH
CFA and FRM
Program

BEST FOR

Investment, banking & capital markets

CAREER PATHS

- Equity Research Analyst
- Investment Banking
- Portfolio Management

Track 2

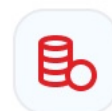

ALIGNED WITH
Quantitative &
Computational Methods

BEST FOR

Data-driven finance & algorithmic trading

CAREER PATHS

- Quantitative Analyst
- Algorithmic Trader
- Risk Quant
- Fintech / Data Scientist
- Derivatives Structurer

Actuarial Science Track

Track 3

ALIGNED WITH
IFoA (UK) · IAI · SOA
(USA)

BEST FOR

Insurance, risk & actuarial profession

CAREER PATHS

- Actuarial Analyst
- Pension Fund Actuary
- Risk Modeller
- Reinsurance Actuary

All students share the same Year 1 curriculum and several common courses in Years 2–3. Track-specific courses are highlighted clearly in the curriculum section.

The Curriculum - Year 1

Semesters 1 & 2

Year 1 is common for all students. You build the intellectual and technical foundation that every finance professional needs, regardless of your eventual specialisation.

Semester 1

- Corporate Finance
- Financial Mathematics 1
- Introduction to Financial Accounting
- Microeconomics: Markets & Strategy
- Communication 1
- Introduction to R Programming & Python
- Excel Basics
- Ethics & Professionalism 1
- Indian Knowledge Systems

Semester 2

- Financial Statement Analysis
- Financial Mathematics 2 (with Excel)
- Business Statistics
- Macroeconomics: Policy & Global Markets
- Communication 2
- Python for Finance
- Advanced Excel & VBA for Financial Modelling
- Ethics & Professionalism 2
- Co-Curricular Activities

By the end of Year 1, every student is fluent in Python, R, and Excel — and has a solid grounding in financial theory, accounting, statistics, and professional ethics.

The Curriculum - Year 2

Semesters 3 & 4

Track specialisation begins. Common courses are listed first, followed by a separate table showing only the courses that differ by track.

Semester 3

Common Courses (All tracks)

- Quantitative Methods (with R)
- Corporate Law
- Behavioural Finance
- Financial Markets & Institutions
- Modern Indian Language
- Python, SQL & C++ for Finance
- Fundamental & Technical Analysis of Stock Markets

Track-Specific Courses

CORE FINANCE

- Fixed Income & Equity Analysis 1

QUANTITATIVE FINANCE

- Fixed Income & Equity Analysis 1

ACTUARIAL SCIENCE

- Life Contingencies 1 (with Excel)

Semester 4

Common Courses (All tracks)

- Alternative Investments
- Taxation & Compliances
- Introduction to Derivatives
- Financial Modelling & Analytics
- Soft Skills & Personality Development
- Community Engagement Program

Track-Specific Courses

CORE FINANCE

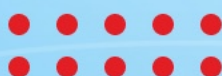

- Fixed Income & Equity Analysis 2
- Corporate Management

QUANTITATIVE FINANCE

- Fixed Income & Equity Analysis 2
- Stochastic Processes & Markov Models (with R)

ACTUARIAL SCIENCE

- Life Contingencies 2 (with Excel)
- Stochastic Processes & Markov Models (with R)

All students share the same Year 1 curriculum and several common courses in Years 2–3. Track-specific courses are highlighted clearly in the curriculum section.

The Curriculum - Year 3

Semesters 5 & 6

Semester 5 brings advanced specialisation.

Semester 6 is your first paid industry apprenticeship - 6 months of real work, matched to your track.

Semester 5

Common Courses (All tracks)

- Portfolio Management
- IRFS - Part 1

Track-Specific Courses

CORE FINANCE

- Private Equity & Venture Capital
- Mergers, Acquisitions & Corporate Restructuring
- FinTech
- ESG Reporting

QUANTITATIVE FINANCE

- Assets & Derivatives Pricing (with Advanced Excel)
- Econometrics (with R and Python)
- FinTech
- Predictive Analytics

ACTUARIAL SCIENCE

- Assets & Derivatives Pricing (with Advanced Excel)
- Econometrics (with R and Python)
- Survival Models (with R)
- Predictive Analytics

Semester 6

Industry Apprenticeship (6 Months, Paid)

- 6 months in a real financial organisation, matched to your chosen track.
- Paid as per AEDP guidelines (₹10,000–₹50,000/month).
- You also complete a Research Project in parallel.

After Semester 6, students have an option to exit with a BSc Finance and proceed to employment or higher education. We encourage students to continue to Year 4 for the full BSc (Hons) Finance — the Honours degree is where the real transformation happens.

The Curriculum - Year 4

Semesters 7 & 8

Year 4 is where good students become exceptional professionals. Advanced courses in Semester 7. A second, more senior apprenticeship in Semester 8

Semester 7

Common Courses (All tracks)

- Risk Management
- IFRS - Part 2
- Bloomberg Market Concepts (BMC)

Track-Specific Courses

CORE FINANCE

- Strategic Financial Management
- International Finance
- Advanced Portfolio Management

QUANTITATIVE FINANCE

- Algorithmic Trading, HFT & Market Microstructure
- Advanced Financial Strategies
- Advanced Portfolio Management

ACTUARIAL SCIENCE

- Loss Reserving (with Excel)
- Risk Modelling (with R)
- Actuarial Practice

Semester 8

Advanced Industry Apprenticeship (6 Months, Paid)

- Industry Apprenticeship — Stint 2

A second 6-month placement at a more technical level. You may choose a different company or a different profile within your track — broadening your experience and your professional network. Most top performers receive pre-placement offers from this stint.

Students who complete Year 4 graduate with BSc (Hons) Finance — the full Honours degree, backed by 12 months of real industry experience across two professional organisations.

Real skills you will build

Every skill below is taught, practised, and applied in real-world settings during the programme.

Python

Financial analysis, automation & data science

R Programming

Statistical modelling & econometrics

Excel & VBA

Financial modelling, macros & dashboards

SQL

Data querying, management & analytics

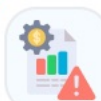

Equity Research & analysis

Fundamental, technical & credit analysis

Bloomberg Terminal

Market data, analytics & BMC certification

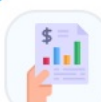

Risk Management

Market, credit & operational risk frameworks

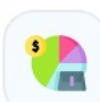

Financial Modelling & Valuation

DCF, comparable analysis & deal structuring

IFRS & Financial Reporting

Global accounting standards & compliance

Derivatives & Portfolio Management

Options pricing, hedging & asset allocation

+12 Months of Real Industry Experience Across Two Organisations

You don't just learn these skills in a classroom — you apply them on live projects in real companies.

Your Degree **Pathway**

We strongly encourage students to complete Year 4. The Honours degree — backed by 12 months of real experience — is the qualification that employers remember.

3-Year Exit **BSc Finance**

Semesters 1–6

1 Paid Apprenticeship
(6 months)

Year Honours **BSc (Hons) Finance**

Semesters 1–8

2 Paid Apprenticeships
(12 months)

Further Studies

MBA · CFA · IFoA · SOA ·
MSc Finance · PhD

After Year 3 or Year 4

Professional Examination Alignment

CFA Institute

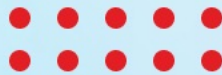

Core Finance Track students enter the CFA journey with a curriculum already aligned to all 3 Levels.

FRM (GARP)

Students across all three tracks study different subjects that overlap with the FRM Level 1 and 2 exams

IFoA (UK) / IAI (India) / SOA (USA)

The Actuarial Track within the program includes 6 to 8 exams from the worldwide actuarial exam curriculum.

TOP EMPLOYERS ACROSS ALL THREE TRACKS

Our graduates are equipped to work at the leading organisations in finance, quantitative research, and actuarial science — in India and globally.

- Regulatory Actuary (IRDAI)

**Expected Median
Placement Salary:
₹10 Lakhs Per Annum**

Individual outcomes depend on performance, specialisation, and market conditions at time of graduation.

Designed by Those Who Have Lived It

The BSc (Hons) Finance is designed jointly by senior industry professionals and leading academics, ensuring that every course is both intellectually rigorous and immediately relevant.

The people who designed this programme, and who will teach and mentor you, bring real-world experience from:

Investment Banks & Capital Markets

Senior finance professionals with CFA credentials and decades of markets experience

Quantitative Finance & Fintech

Quant experts who have built risk models, trading systems, and financial algorithms at global firms

Academic Excellence

Top-notch academicians whose research and pedagogy ensure intellectual depth alongside industry relevance

Actuarial Firms & Insurance Sector

Qualified actuaries (FIA, FIAI) with leadership roles in India's insurance and pensions industry

Big 4 Consulting & Corporate Finance

Practitioners from the world's leading advisory firms and major Indian corporates

What KRMU Promises You

These are not aspirations. These are commitments.

A Guaranteed Paid Apprenticeship

KRMU has signed MoUs with organisations across all three tracks. Every student will receive a paid, track-matched apprenticeship, in Semester 6 and again in Semester 8. You focus on your studies. We handle the placement.

12 Months of Real Industry Experience

Across two stints with two different organisations, you will accumulate 12 months of professional finance experience before you graduate. No other BSc programme in the region offers this.

A Curriculum Built by Industry & Academia Together

Every course is designed jointly by senior practitioners and top-notch academicians — ensuring what you learn is both rigorous and directly relevant to what employers need today and beyond.

Globally Aligned Professional Credentials

The curriculum is aligned with CFA Institute, IFoA, IAI, and Society of Actuaries (USA). If you pursue professional certifications alongside your degree — and many of our graduates will — you will already be ahead.

Technology From Day One

Python, R, Excel, VBA, SQL, and Market analysis Concepts are not electives here. They are core skills — because every finance professional today must be fluent in the tools of modern finance.

Placement Support for Every Graduate

Most students are expected to receive employment offers directly through their apprenticeship organisations. For every student who does not, KRMU provides full placement support — connecting you to our industry network and helping you find your place in the profession.

Honest Guidance, Always

We will guide you on professional examinations, postgraduate study, and career decisions with honesty — not with what sounds good on a brochure. Your long-term success is our reputation.

Placement outcomes depend on individual performance, specialisation, and market conditions at time of graduation. KRMU commits to providing every student with the tools, experience, and support to succeed.

STUDY AT INDIA'S BIGGEST FINANCIAL HUB
